

IPEN provided some specific examples of milestones that they had prepared in preparation of this meeting based on the OOG basic elements including:

1. By 2030, implement segregation of waste at source for reuse, recycling and composting in all major cities.
2. Private sector funds recycling infrastructure in 75 countries by 2025, 150 countries by 2030.
3. By 2030, achieve clean production and zero discharge of pharmaceuticals into the environment.
4. By 2030, private sector implements the SAICM chemicals in products programme in 150 countries.
5. By 2025, establish a living, publicly available global inventory of nanomaterials on the market.
6. By 2025, all major cities containing more than 1 million inhabitants conduct a waste audit to find out the amount and type of waste being produced, imported, and exported.

In addition, a detailed submission from **IPEN** was provided in writing on examples of proposed objectives, related milestones, and links to SDGs and Agenda 2030, using SAICM/IP.2/8 Proposal on objectives in support of the 2030 Agenda and related milestones as the basis.
