

TECHNICAL BRIEFING

Promoting integrated chemicals and waste management under the Strategic Approach and sound management of chemicals and waste beyond 2020

Saturday, 27 August 2022, Bucharest, Romania

10.00am

Expected duration: 3 hours

Objectives:

- Present the concept of integrated chemicals and waste management and share insights from the IOMC workshop organized by UNITAR on August 26 on the topic (information is available on UNITAR's webpage: <https://unitar.org/sustainable-development-goals/planet/our-portfolio/international-policy-development>), including examples of how an integrated approach may apply to key industry sector(s) and product value chains; and
- Discuss if and how elements of integrated chemicals and waste management could be used in developing a new instrument beyond 2020.

Participation: The Technical Briefing is open for all SAICM stakeholders.

Format: To enable the active participation of all SAICM stakeholders, the technical briefing will use an interactive panel format and include discussions with the audience. Those who cannot be present in Bucharest will be able to follow the event online.

Draft agenda:

	<i>Agenda Item</i>	<i>Speakers/Panelists</i>	<i>Duration</i>
	Welcome, agenda, logistics	Moderator	3 min
1.	Opening remarks	Anita Breyer, ICCM5 President	5 min
2.	Rationale for integrated chemicals and waste management	Sheila Aggarwal-Khan, UNEP	10 min
3.	Articulation and development of integrated chemicals and waste management <i>Presentation and questions of clarification</i>	Achim Halpaap, UNITAR	15 min 15 min
	Brief presentations of the concept and main insights from the UNITAR workshop on integrated chemicals and waste management and interactive discussions, including on how integrated chemicals and waste management could be used in developing a new instrument beyond 2020.		
5.	Establishing a basic national chemical management system	Brief presentation and discussion facilitated by IOMC representative(s)	40 min
6.	Integrating chemicals and waste management in chemical intensive industry sectors and value chains	Brief presentation and discussion facilitated by IOMC representative(s)	40 min
7.	Integrating chemicals and waste management within sustainable development initiatives	Brief presentation and discussion facilitated by IOMC representative(s)	40 min
8.	Regional and stakeholders' brief reflections and next steps	Moderator	15 minutes
