

Thematic Group #1

Vision, strategic objectives, targets and measurability

Outcome on Elements from targets that could be considered as indicators

as of Friday 3 March 2023 - morning session

Elements from targets that could be considered as indicators

During our discussions, some participants proposed that some elements of certain targets could be considered indicators. This text was deleted from the original target and is currently reflected in this document.

Target D6 - By 20xx, sustainable chemical and waste management strategies have been developed and implemented for xy major economic sectors with intense chemical use, which identify priority chemicals of concern, standards and measures to reduce chemical input and footprint along the value chains (e.g. textile, electronic, building, agriculture etc.)

It was agreed that following text could be considered as indicators under target D6:

(e.g. textile, electronic, building, agriculture etc.)

Target E3- [Predictable and sustainable new] Financial [and non-financial] resources needed to achieve [support] the sound management of chemicals [and [their] waste] are identified, [and] mobilized [, and increased by at least XXX amount per year according to our common but differentiated responsibilities, [to address national needs and realities]] in all sectors by and for all stakeholders.]

[Indicators (integrated approach to financing):

- **Financial resources mobilized through mainstreaming**
- **Financial resources mobilized through private-sector involvement**
- **Financial resources mobilized through dedicated external financing]**
-

It was agreed that the following section could be considered as indicators under target E3:

[Indicators (integrated approach to financing):

- *Financial resources mobilized through mainstreaming*
- *Financial resources mobilized through private-sector involvement*
- *Financial resources mobilized through dedicated external financing]*
